Subject: Underground Injection Control (UIC) Permit Application  
Carbon TerraVault 1, LLC (CTV) 26R Project  
Class VI Pre-Construction Permit No. R9UIC-CA6-FY22-1  
Technical Review of Application

Dear Mr Hurst,

The United States Environmental Protection Agency, Region 9 (EPA) is conducting a technical evaluation of the subject permit application. Based on the recent set of comments EPA issued to CTV on December 15, 2021 regarding the A1-A2 project, we are requesting re-submittal of the Financial Responsibility and the Emergency and Remedial Response Plan modules for the subject permit, to address the comments EPA provided on these same modules for the A1-A2 project. Once the two modules are re-submitted, we will continue our technical review of these modules.

Please submit the revised modules by February 18, 2022. If you have any questions about this letter, please contact Michele Dermer at (415) 972-3417 or call me at (415) 972-3971.

Sincerely,

DAVID ALBRIGHT
